*Building*  
**knowledge**  
*for life*

# Nurturing **self-knowledge** and holistic growth

*The purpose of education is to inspire learning, nurture talents and prepare the learner for life. However, in the present day, students learn about everything except themselves. Shree Shrinivas Vidhya Vihar helps learners to know who they are and guides them to become the best that they want to be.*

# Complete platform for holistic learning

**Panchkosha Vikas (Five fold development)**  
**A keystone in Indian Cultural Tradition**

- The Layers are :
- *Physical layer*
- *Life force energy layer*
- *Mind layer*
- *Intellectual layer*
- *Inner self layer*

Each layer exhibits certain distinct characteristics. The holistic development of a child takes into account the nurturing and nourishment of these five layers.

## Physical Development

- Lush Green Sports field with the provision of all Outdoor Sports (Cricket, Football, Kho-Kho, Volleyball, Basketball, Army Camp & Athletic Activity) & Indoor games (Table Tennis, Chess, Carrom).
- Regular Yoga, meditation sessions and talk by experts on healthy lifestyle.
- Special Stamina enhancing session

## Cognitive Development

Integrating CBSE Curriculum with inquiry-based, discussion-based, discovery-based and analysis-based, thematic learning.

## Linguistic Development

Emphasis on balanced linguistic development with respect to all the three important languages English, Hindi and Sanskrit.

## Holistic Development

## Skill Development

- Computer Education
- Vocational Education
- Training on Life Skills
- Special Gurukul Integration Program

## Spiritual Development

- Integrating value education with regular Art & Craft, Music and Dance Classes
- Regular Youth Development Program based on the messages of Upnishad

**The Upnishad  
Way of Learning**

# Knowing. Becoming. *Excelling.*

*While they discover the wonders of the world, our children are introduced to the unique talents and challenge areas within them. They learn how to plan their goals and achieve them under expert guidance. Self-knowledge becomes the base to uncover a world of possibilities within and in the outside world.*

## SELF-KNOWLEDGE

Understanding who we are, our strengths, weaknesses while also knowing about the world.

## SELF-DISCIPLINE

Choosing between our needs and desires and deciding our priorities.

## SELF-LEARNING

Choosing our learning goals and pursuing knowledge.

## SELF-GROWTH

Having a growth mindset and learning how to improve and become better everyday.

## LEARNING EVERY DAY

- Learning by exploration
- Learning by doing
- Learning by collaboration
- Learning by exposure
- Learning by reading
- Learning with fun

# *Building the future* *with an Indian heart and* *global mind*

*True to its Mission & Vision, Shree Shrinivas Vidhya Vihar introduces learners to a simple, inspired living like the Gurukul system of ancient times. The school integrates the learnings of Swami Shree Shrinivasacharya, Swami Vivekanand, Savitri & Jyotiba Phule, Rabindranath Tagore, Mahatma Gandhi, Shri Aurobindo, Jiddu Krishnamurti to inspire children to practice spirituality in their daily lives. Character building forms the core of learning. School activities are designed to inculcate values and purity in action, thought and speech. As part of the curriculum, children are also taught to ensure Panchkosha Development with the emphasis on the "Sanskar" which forms part of the vedas, the Indian society guide.*

# Becoming the best with the best from India

*Our curriculum brings holistic methods of learning and global best practices to empower children to face the changing times. Ready with these traditional systems, children are prepared to lead a challenging global world with confidence.*

## YOGA

For all round development of mind, body, heart and soul.

## MEDITATION

Emotional and mental well-being to build a healthy foundation for tomorrow.

## LSRW

Focus on Listen, Speak, Read and Write

## VACHA

Core concept for turning the awareness inwards.

## LANGUAGE

Three language development Hindi (Rashtriya Bhasha), English (Global Language), Sanskrit (Phonetics of sanskrit enhance body's energy level and it's the most scientific language.)

# *Integrating Value education with curriculum*

# Grooming skills for a *successful* *life*

*Knowledge and skills go hand in hand at SSVV. We believe that each child is unique and at our school, we take great care to nurture the child's interests, talents and skills. We work with parents, students and experts to groom their talents for a world coming up with new opportunities. Our special vocational courses train children to become skillful. While interacting with experts who visit as guests, children also find motivation and exposure to learn, practice and succeed.*

# Teaching Methodology

## Foundation & Middle Stage

*The Junior Section of School, comprising Nursery to Class II, not only in appearance look in sync with the age and preference of a young kid but also utilizes the teaching methodology most appropriate for the age and aptitude of kids of this age.*

As established, a child of this age is most receptive to events occurring in the immediate environment.

Utilizing this fact with help of educational toys and tactical path activities, the kids are exposed to complex for age phenomenon in a manner which is easy to understand and register.

Teachers of junior section are trained in Montessori method of teaching, which is considered the most ideal way of teaching little kids.

Latest modes of learning, closely linked with child psychology based upon NEP 2024 recommendation for Foundation stage make it a unique and joyful learning experience for kids.

Our curriculum structure integrates experiential and skill-based learning.
